As a part of academic activity Department of MCA Conducted a Guest Lecture on 30.07.2021 by the resource person J.JENITHA, Dot Net Developer, HTC, Global Services, Gunidy, Chennai.

Resource person delivered a session on “MVC APPLICATION IN DOT NET”. She delivered a hands-on session on how to create an MVC application in Dot Net. She gave wonderful tips on how to handle MVC applications.

KEY POINTS HIGHLIGHTED:

- Introduction to MVC
- Where to use MVC
- MVC Architecture
- view Data, view bag and temp data differences
- Input data types of MVC application
- SQL server database connection
- An Example program for MVC.

In this Session students have got a good knowledge about MVC APPLICATION IN DOT NET. She explained features of MVC application, Where to use MVC and finally about how to Execute the MVC application using a proper Source Code.

Model **V**iew **C**ontroller or **MVC** is a software design pattern for developing web applications.

MVC is popular as it isolates the application logic from the user interface layer and supports separation of concerns. Here the Controller receives all requests for the application and then works with the Model to prepare any data needed by the View. The View then uses the data prepared by the Controller to generate a final presentable response.

OUTCOME:

- From this session students got an idea about why we need MVC Application.
- Got an idea about how to create a MVC Application.
- Got a detailed exposure on MVC Application.
- Students got a detailed explanation of each steps in creation of MVC applications.

The resource person was C.SUVETHA BSETEC PHP DEVELOPER- MADURAI, CORPWORX UI DEVELOPER-NEW JERSEY delivered a guest lecture. II and III year students of MCA attended the guest lecture. The program was started at 1.30 pm and winded at 3.00 pm.

She started her session with introduction to client server architecture. After that she explained three tier which is a client-server architecture in which the user interface, functional process logic ("business rules") and data storage and access are developed and maintained as independent modules, most often on separate platforms. Apart from the usual advantages of modular software with well-defined interfaces, the three-tier architecture is intended to allow any of the three tiers to be upgraded or replaced independently as requirements or technology change.

NAME: Mr. S. Vikaram	DATE : 27-08-2021
DESIGNATION: Digital marketing technical head in synergy, Madurai.	TIME: 11.00 A.M to 12. 00 P.M
TOPIC: The Scope of SEO and SEM	VENUE: Webinar Link: https://meet.google.com/ipo-esjt-xmh

As a part of Department activity PG Department of Computer Applications organized a Guest Lecture on the Topic “**SCOPE OF SEO AND SEM**” on 27.08.2021 at Google Meet.

In this session, we have learnt about the SEO, short for Search Engine Optimization is one in all the digital promoting activities that assist in higher optimization and rank website in search engines like Google, Bing and help users notice to web site easily. The ‘Optimization’ will take several forms like on-site content and web content improvement or web site backlink improvement.

SEM or Search Engine Marketing is a broad umbrella term and refers to paid strategies used by brands to boost brand visibility and conversions. The scope of SEM in digital marketing is pretty wide and includes components from both SEO (search engine optimization) and PPC (pay-per-click).

The focus is largely to boost brand awareness, the website traffic and ultimately lead to conversions. SEM leverages popular search engines such as Google and Bing to inform prospects about a particular brand or product through paid advertisements.

DATE: 24/9/2021

TIME: 3.00 P.M -4.00 P.M

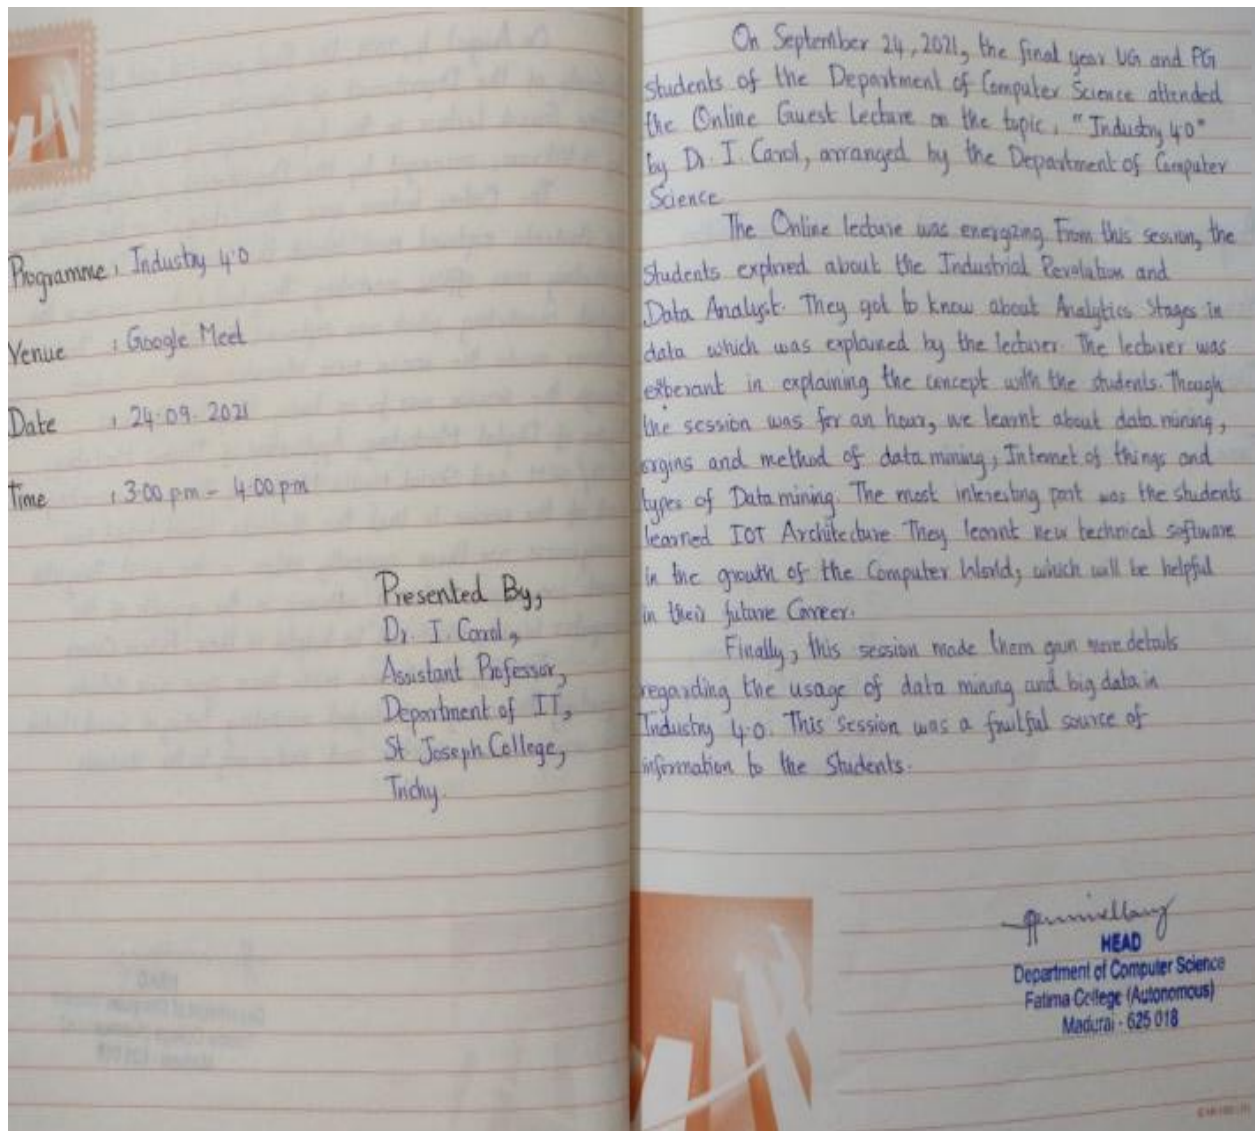

On September 24th 2021, the final year UG and PG students of the department of computer science attended the online guest lecture on the topic “Industry 4.0” by Dr. I. Carol, arranged by the department of computer science. The online lecture was energizing. From this session, the students explored more about the Industrial revolution and data analyst. They got to know about Analytics stages in data which was explained by the lecturer. The lecturer was exuberant in explaining the concept with the students. Though the session was for an hour, we learnt about data mining, origins and method of data mining, Internet of things and types of data mining. The most interesting part was the students learning IOT architecture. They learnt new technical software in the growth of the computer world, which will be helpful in their future career. Finally, this session made them gain more details regarding the usage of data mining and big data in Industry 4.0. This session was a fruitful source of information to the students.

Orientation by Honeywell

An orientation program was given to the registered students by Honeywell officials about the training program and its significance on 11th December 2021.

Honeywell Training program

Since face to face training program is not possible during this pandemic period, ICT Academy and Honeywell have decided to conduct it virtually and the training classes started on 10th January 2022 by virtual mode. **Mrs. Rajalakshmi** the master trainer from Honeywell is handling the classes.

Data is stored one transaction at a time. Data is periodically loaded, aggregated and stored in a cube.

Instructor notes: It is important to understand the distinction between OLTP and OLAP.

Participants: Rajalakshmi Natesan, 2019BC27 SANKARA G..., 2019BC42 THANUSHA V, ICT FATIMA COLLEGE, 2019BC05 DHARSHINI..., 2019BC13 HEMALATH..., 2019BC24 RESHMA A, 40 others, You.

Use DDL statements

Statement	Description
CREATE	Create a new object in the database, such as a table or a view
ALTER	Modify the structure of an object. For instance, altering a table to add a new column.
DROP	Remove an object from the database.
RENAME	Rename an existing object.

Instructor notes: You use DDL statements to create, modify, and remove tables and other objects in a database (table, stored procedures, views, and so on). These are the most common DDL statements: CREATE, ALTER, DROP, and RENAME.

Use cases for Azure Cosmos DB

Web and retail	Gaming	IoT optimization
Using Azure Cosmos DB's multi-master replication model along with Microsoft's performance commitments, Data Engineers can engineer a data architecture to support web and mobile applications that adhere to a 50-msec response time anywhere in the world.	The database tier is a crucial component of gaming applications. Modern games perform graphical processing on multi-million clients but rely on the cloud to deliver customized and personalized content like in-game stats, social media integration, and high-score leader boards.	Hundreds of thousands of devices have been designed and sold to generate sensor data known as Internet of Things (IoT) devices. Using technologies like Azure IoT Hub, Data Engineers can easily design a data storage architecture that captures real-time data. Cosmos DB can ingest and store this information very quickly.

Instructor notes: Use cases and management benefits of using Azure Cosmos DB

- Cosmos DB is a highly scalable database management system. Each partition can grow up to 10 GB in size.
- Indexes are created and maintained automatically.
- All databases are replicated within a single region (or across regions at additional cost).

OUTCOMES:-

- From this session, students learned aimplementation of IoT.
- This session gave student a lot of ideas about IOT through the live demonstration and also shows the importance of Raspberry PI to be implemented in various real time projects.
- Got knowledge about implementation of IoT through demonstration.
- As the session was so interesting, the lecture became more and more interactive.

ABOUT FATIMA COLLEGE

Fatima College (Autonomous), Mary Land, Madurai, is a Postgraduate College for women affiliated to Madurai Kamaraj University. It is a Catholic Minority Institution established in 1953 and run by St. Joseph's Society of Madurai (of the Congregation of the Sisters of St. Joseph of Lyon, France). This institution came into existence through the tireless efforts of the missionary sisters of St. Joseph of Lyon and the ardor and heroic sacrifice of Rev. St. Rose Benedicta, the Foundress of the College. The College offers 21 Undergraduate Programmes, 14 Postgraduate Programmes and 2 Professional Programmes. 4 Departments have become Research Centers. It has a strength of 4076 students, 194 Teaching Staff and 91 Non-Teaching Staff. It is re-accredited with 'A++' Grade by NAAC (Cycle-IV).

ABOUT THE DEPARTMENTS

Department of Computer Science was started in the year 1988 with the vision "To be in the Zenith of Scholarly Excellence in Computer Science by imparting Value Based, Skill Based and Career Oriented Education for Holistic Individual Development". The Department offers B.Sc and M.Sc Computer Science and endeavours to provide technical expertise and knowledge in Computer Science in achieving more than 80% placements for its graduates with good package.

The AICTE approved Professional Programme MCA (Master of Computer Applications) was started in the year 1994 as an attempt to synchronize the newer developments in information technology with the current industry requirements. The programme covers the Technical as well as Managerial aspect of Computer Applications with internships and industrial training.

UG Department of Computer Applications was started in the year 2005. It helps to bring out the inherent talents of students and guide them to adapt to the dynamic IT world and make them responsible citizens.

Department of Information Technology was established in the year 2006. The department acts as the centre of excellence in training the students in Information Technology to excel both as professional and as responsible women in the society. Team work of the staff, upgrades the student's power of faith and hope in effective strategic and tactical planning in use of technology.

ABOUT THE CONFERENCE

According to the Bureau of Labor Statistics, USA, the field of Computer Science is projected to grow by 21 percent through 2029, making it one of the fastest-growing professions in the global economy. Computer Science has made the whole world shrink and has made it available at the fingertips now. Next-generation of computing technologies are evolving from the emergence of new concepts and thrust areas in active research such as Distributed Computing, Cloud Computing, Parallel Computing, Grid Computing, Artificial Intelligence, Machine Learning, Deep Learning, Data Analytics and their related applications. Technological advancements are giving today's scientists access to vast amounts of data never before accessible creating new frontiers and new challenges in computing.

The motivation behind this conference is to provide a common forum for researchers and academicians to present and discuss their latest research ideas and developments. The outcome of the conference is to understand the impact which the emerging technologies will create in the future world.

CALL FOR PAPERS

International Conference on In-World Technologies: Venture into Next Gen aims to strengthen the collaboration and provide a forum for academicians, professionals and researchers to discuss and exchange their research results, innovative ideas and experiences in all aspects of Computer Science, Computer Applications and Information Technology as well as to identify emerging research topics and define the future directions of computing technologies.

Students, Faculties, Research Scholars, Scientists and Industrial Executives are welcome to submit the full-length paper of their research on any of the following themes although not limited to the following areas.

All the papers will be peer-reviewed

- Artificial Intelligence (AI) and Machine Learning
- Robotic Process Automation (RPA)
- Edge Computing
- Quantum Computing
- Virtual Reality and Augmented Reality
- Digital Image Processing
- Cloud Computing
- IoT
- Network Security & Secret Sharing
- Cryptography and Cryptanalysis
- Blockchain Technology
- Web and Cloud Security
- Bio-Engineering
- Computing Models and Applications
- Data Mining and Data Analytics

SUBMISSION GUIDELINES

- Papers should be submitted as MS Word (.docx/.doc) Document, Font: Times New Roman, Size: 12, 1.5 Spacing, 1-inch Margin on all sides, figures and table with appropriate spacing.
- Name of the author(s) along with the affiliation should be clearly specified.
- Participation certificate will be given to all the registered participants.
- Accepted and presented papers will be submitted for possible inclusion in UGC Care List.
- Authors are advised to follow IEEE Policy on Plagiarism.
- The Abstracts of Research paper should be submitted through the link provided on or before 09/05/2022.
- Camera ready copy of accepted papers must be submitted on or before 16/05/2022.

INAUGURATION

DATE : May 25 & 26

DAY : WEDNESDAY

VENUE : JUBLIEE HALL

TIME : 9.30 AM

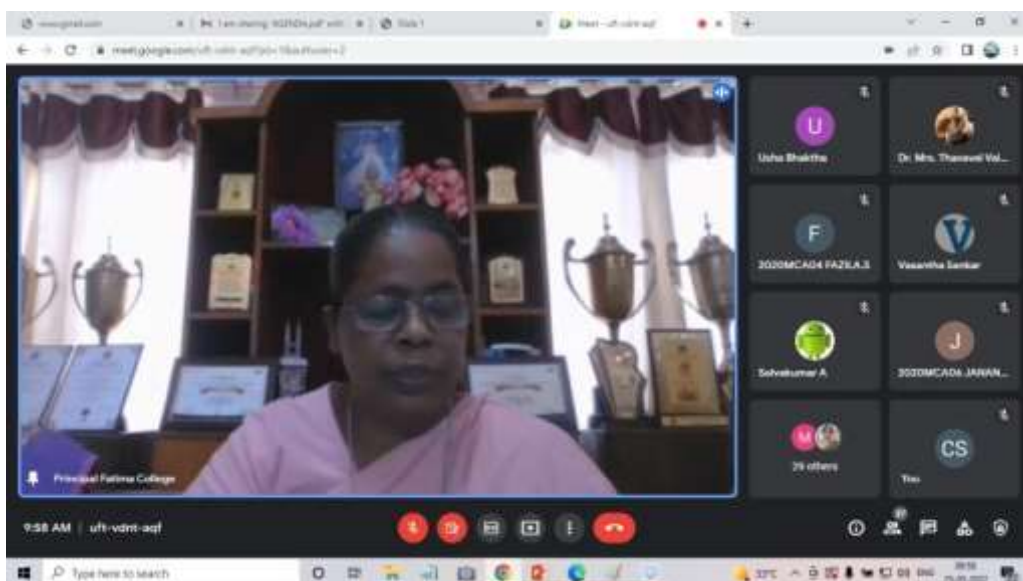

Department of Computer Science, Department of Computer Applications, Department of Information Technology jointly organised two-day international conference on “**In-World Technologies: Venture into Next Gen**” on May 25 & 26, 2022.

The Inauguration function started at 9.30 a.m with the divine presence of Prayer Song.

Dr.Vimala, Assistant Professor, Department of Computer Science, welcomed the gathering with her enchanting words. She stated that this event will be helpful for the participants to understand the technologies that will be used in the future.

Dr. G.Germine Mary, Associate Professor & Head, Department of Computer Science and Convenor of the conference presented the theme of the conference in a lucid manner for the understanding of the audience.

Rev.Dr.G.Celine Sahaya Mary, Principal, Fatima College, presided over the function and delivered the Inaugural address. She emphasized that technology is going to rule the next generation.

The proceedings of the international conference was released by Rev.Dr.G.Celine Sahaya Mary, Principal, Fatima College and the first copy was handed over to Dr. Raju, Director, Professional Courses, Fatima College, Madurai.

The Keynote address was delivered by Dr.ThavavelVaiyapuri, Associate Professor, College of Computer Engineering & Science, Prince Sattam Bin Abdulaziz University, Saudi Arabia in the topic “The Next Frontier Technologies for Sustainable Development”.

Her talk highlighted the potential of Fourth Industrial Revolution technologies to tackle major global challenges such as poverty, climate change, nature loss and inequality is immense, yet this potential is far from being reached. The global public goods are scaling up the efforts to proactively engage stakeholders to channel Fourth Industrial Revolution innovations towards positive social, economic and environmental outcomes through a series of initiatives.

“Gratitude is the Mother of all arts”. The vote of thanks for the inaugural function was given by Mrs.V.Mageshwari, Head, Department of Information Technology. She expressed her heart felt gratitude towards the convention of the conference with untiring efforts of each and every one associated with the combined efforts of this event.

TECHNICAL SESSION – I

DATE : 25.05.2022

TOPIC : Art and Science of Advanced Data Visualization

RESOURCE PERSON: Mrs. Jaycy Margarett Associate Director

Accenture Products & Platform Accenture

Phildelphia ,Pennsylvania, USA

TIME : 10.45 AM - 11.45 AM

Miss.K.Madhubala, IIMCA, PG Department of Computer Applications hosted the session. Miss.T.Pooja, IIMCA, PG Department of Computer Applications welcomed the gathering. Mrs. Jaycy Margarett, Associate Director, Accenture Products & Platform Accenture, Phildelphia, Pennsylvania, USA addressed on the topic “Arts and Science of data Visualization”.

She revealed the interesting facts about data visualisation, which is used to communicate the information clearly through graphs and charts. Data visualization tools provide accessible ways to understand outliers, patterns, and trends in the data. Data visualization is important because of the processing of information in human brains. Using graphs and charts to visualize a large amount of the complex data sets is more comfortable in comparison to studying the spreadsheet and reports. Data visualization is an easy and quick way to convey concepts universally.

TIME : 10.45 AM - 11.45AM

Ms. Madhumitha, II B.Sc CS was the mistress of ceremonies. Ms. Shree Varshini, III B.Sc CS welcomed the dignitary. Eminent speaker, Dr. Justus Selwyn, Professor Department of Computer Science, John Brown University, Siloam Springs Arkansas, USA delivered a talk on “A Research Perspective on Knowledge Engineering Artificial Intelligence and Intelligent Agent”. He highlighted the relationship between the Knowledge Engineering, Artificial Intelligence and Intelligent Agent. He elucidated the role of knowledge engineering & the importance of knowledge in artificial intelligence. Ms. Judith, I B.Sc. CS delivered the vote of thanks.

The screenshot shows a Zoom meeting interface. On the left, a presentation slide titled "Knowledge?" is displayed. The slide content is as follows:

- To Know something is knowledge
 - Know to drive a car
 - Know how to learn and comprehend
 - Know to know the unknown
- Facts - Sky is blue. Sun rises in the east. There is a hairpin bend on the road ahead.
 - True facts
 - Assumptions
- Rules - IF - Then - ELSE statements
 - Conditions (if the sky is clear, then 'it wont rain', else 'take an umbrella')

It also subscribed the Anti-Plagiarism tool Drillbitt to evaluate the projects and dissertations. Rosa Mystica usage statistics per semester is 27170 walk-ins through both Online and manual access.

ABOUT THE SEMINAR

The digital revolution has touched nearly every aspect of our lives. The process of using digitized information to make established ways of working simpler and more efficient is called digitalization. Digital transformation is the process of using digital technologies to create new or modify existing business processes, culture, and customer experiences to meet changing business and market requirements. This reimagining of business in the digital age is digital transformation.

Interactive project management tool enables to organize the research work and tasks into visual boards. This tool not only gives a clear view of all relevant tasks, but also the ease and flexibility to rearrange those tasks as per the needs and priorities. Reference Management Tools captures the sources found on the internet. It helps to organize and save the sources, insert citations in the written work and also helps to create a bibliography. Data visualization tools provide data visualization designers with an easier way to create visual representations of large data sets. Even non-designers can create effective visualizations of data for marketing reports, infographics, social media posts. The Research Sharing tool helps the researchers to have the option of saving content to their link library or adding them directly to content collections and sharing their research with their peers. Researchers can also edit the title and description to add their own voices or notes. They can even bundle links together and share their link collection with others as a newsletter.

The motivation behind this seminar is to enrich the knowledge of researchers and academicians and help them to identify the usage of different tools. The outcome is to understand the impact which the digital transformation helps to move towards new trends and modern approaches.
