There are three boxes of fruits. The first box contains just Apples, second contain just Orange and the third box contain a mixture of both. Each box is labeled – one says “Apples”, the second says “Orange”, and the last says “Apples & Oranges”. But it is known that none of the boxes are labelled correctly. The task is to label each of the boxes correctly. However you are only allowed to pick one box and exactly one piece of fruit from that box will be shown to you. What will be your strategy?
