- Roles and Responsibilities about Project.

In this session, she said that project work is a way of applying the skills and knowledge acquired during the academics in solving or analyzing real life problems and drawing conclusions. In addition, during the project work, the students learn how to cooperate with others who have different skill sets than their own. She also suggested that at the end of every semester, the students should be encouraged to do a mini project work based on the laboratory experiments, so that they could achieve something really good when they come to the final semester. Project management skills are the competencies and traits a person needs in order to effectively coordinate a project from start to finish.
