## Report:

To give awareness about pollution of the environment, the **Rotaract club of Fatima College organised a discussion about plastic pollution and a poster making competition titled “Plastic Pollution” on 28/12/2020.** The students of the Club submitted many creative posters in Google classroom related to plastic pollution.

The following points were discussed on that day.

- Every minute, one million plastic drinking bottles are purchased around the world.
- Every year, 5 trillion single-use plastic bags are used around the world.
- Half of all plastic manufactured is intended to be used once and then discarded.
- We must reduce the flow of plastic at the source.
- Rivers transport plastic garbage from the interior to the sea.
- Minimize the usage of single-use plastics.
- A complete prohibition on the manufacture and use of plastic bags is essential.

Finally, students made a pledge that they will never use plastic inside the College campus.

**Outcome:** Students made a pledge that they will strictly avoid using plastic inside the College campus.
