There appears to be some odd data in this file! Click for details

- the entry *'Dr. M. Vijaya Shanthi History'* in the **'_arrivalTimes'** variable does not uniquely match any of the names in the **'classList'** variable?!?
  → a row has been appended to the bottom of the table

Attendance Summary Legend:

This report summarizes data for the following class(es): `class-list`.

The student was present for some or all of the class. The green bar in the field shows the approximate arrival time and length of stay. A gap between two (or more) green bars within a class indicates that the student joined, left and then rejoined again.

The student missed the entire lesson

The widths of the columns shows the approximate length of the Meet relative to the others

NB - If you want a printed copy of this report, make sure that the 'More settings' → 'Background graphics' checkbox is checked in the Print dialog

Daily Attendance Legend:

The student was present then exited, rejoined, then exited again, and rejoined again, etc , etc.

The alternating background patterns indicate that the student may have left and rejoined the Meet

The student was marked present by the teacher (but did not shown up in the Meet window)

The student missed the entire class

Help videos:▶

To help your eye follow across the page, the table rows alternate between white and grey backgrounds which leads to two subtly different shades of green for the times when the student was present

NB - If you want a printed copy of this report, make sure that the 'More settings' → 'Background graphics' checkbox is checked in the Print dialog

Up-Rev Prior Attendance Reports:

This allows you to update your old Attendance reports to the latest version of the HTML file. This will fix a number of issues and errors in the earlier versions of the reports.

- Click the 'Choose files' button below and then navigate to the location where your old attendance reports are located.
  By default, the attenance reports are saved to your *'Downloads'* directory but you can (and probably should) move them to a more permanent location.
- The updated files will get saved once again to your *'Downloads'* directory.
  Browser security dictates that the files can only be written to that directory .. I cannot automatically save them elsewhere.
- NB - you can update several files at once using the <*shift*> and/or <*ctrl*> keys to select multiple files (but you will likely have to click *'Allow'* in a system dialog before the updated reports are download).
