focused on its impact on autonomous colleges and explained the need to become proactive so that the domain of HE could be revolutionized to meet the challenges. She identified the multi- disciplinary approach and the skill development programmes that promote better employment opportunities. There is a dire need for the HE institutions to judiciously combine research and academics that would facilitate multidisciplinary options. The students should be given the privilege of completing four-year integrated programmes in the institutes of their choice. This will enhance the quality of the Colleges on par with the international standards. Collaborative research, teaching and curriculum development would be another milestone of the NEP. The resource person emphasized the importance of the role of teachers as facilitators and curriculum designers in taking the autonomous colleges to greater heights. She also pointed out the need to practice Blended learning and Open Distance Learning which would bring about a sea change in teaching-learning methodology. The session was lively and interactive. The session came to an end with the vote of thanks proposed by Mrs. P. Sumedha, Head of the Department of English (SF).

welcome the Resource Person and the audience. In her welcome address Dr. Magdalene introduced the chief guest Dr. Alex, Associate Professor, Department of Commerce, St. Joseph's College (Autonomous) and briefed some of his academic achievements, highlighting his expertise in training the teachers and entrepreneurs. She then invited the Principal Dr. Sr. Celine Sahaya Mary to give the introductory comments. Sister Principal shared her views with the faculty participants about the importance of attending such enrichment programmes which would enhance their skills of teaching effectively.

The floor was then open to the Guest Speaker to address the audience who began by stressing upon the paradigm changes from black board-based teaching to modern ICT based teaching and the importance of using online tools for teaching and evaluation in present days. Dr. Alex quoted various examples from history and the life of the Greek philosophers to drive his point home. He also emphasised saying, "If teachers are not updated, they are outdated."

Quoting Ron Kurtus, Dr. Alex explained how one can be happy in life. The resource person also narrated few anecdotes that made the session more lively, interactive and interesting. Throughout the programme the audience were very interactive and kept on participating and responding to the questions of the speaker. Dr. Alex also pointed out how a teacher has to "learn, unlearn and relearn"; how a teacher has to be always ready to learn and facilitate the needs of the students in the classroom. The life lessons they were taught by the speaker were enriching and really those were the precious take aways of the day. It was absolutely an enriching session which had rejuvenated the teachers and made them once again enlightened and refreshed.
