Report :

All the first UG students of AICUF (Shift -I) cell were gathered in a smart room on 20.10.2022. They were exposed to two short films which were based on problems faced by the kids from a so-called low employer family. One was based on drainage issues faced by drainage cleaners and the other was based on scavengers. The kids of both families are not ready to accept their father's occupation and even they are not ready to expose them to their friends and society. They are not aware of all the issues faced by their fathers and they don't know that they are doing this tough job just for their kids and society. They are continuously insisting their fathers to change their job but they are not ready to let down. At last the kids are realising the responsibility and sufferings of their father and become very proud about their contribution to the society. From this students came to know to respect the people of drainage cleaner and scavengers and treat them as a normal human being.
