PROGRAMME 4 organized by Green Club

Name of the Programme : VERMICOMPOST

Date of the Programme : 19.08.2022

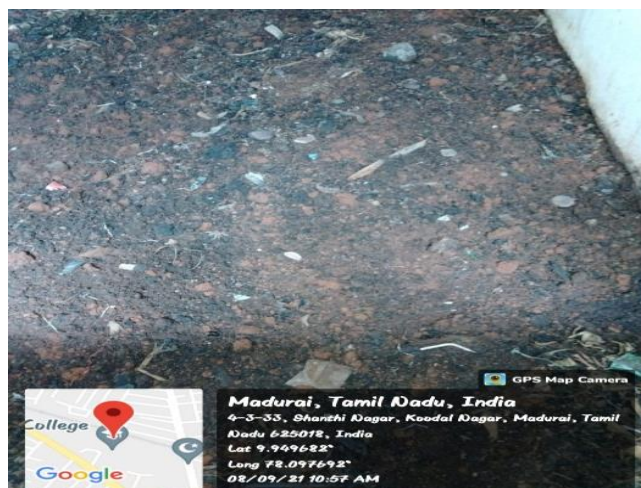

Beneficiaries : 10

Place : Fatima College, Madurai

Highlights of the Programme:

On 19.08.2022 the green club volunteers along with the green club in charge staff cleaned the pit and filled the pit with decomposable organic wastes such as animal excreta, kitchen waste, farm residues and leaf litter as composting materials. The volunteers filled the pit with cow dung and chopped dried leafy materials which are mixed in the proportion of 3: 1 and are kept for partial decomposition for 15 – 20 days. A layer of 15-20cm of chopped dried leaves was kept as bedding material at the bottom of the bed. And then red earthworm were released on the upper layer of bed. The student volunteers visited the pit regularly and sprinkled water in order to keep the beds moist. Vermi-Compost gets ready in 45-50 days. The finished product is 3/4th of the raw materials used. It is one of the easiest methods to recycle agricultural wastes and to produce quality .

PROGRAMME 5 organized by Green Club

Name of the Programme : Harvesting the VERMICOMPOST

Date of the Programme : 19.11.2022

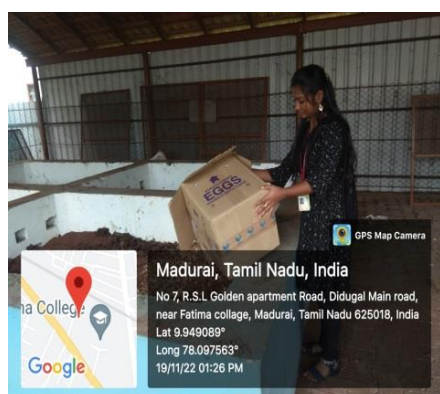

Beneficiaries : 10

Place : Fatima College, Madurai

Highlights of the Programme:

On 19.11.2022 the green club volunteers checked the completion of decomposing process. When the raw material is completely decomposed it appears black and granular. Next watering was stopped as compost gets ready. The compost was kept over a heap of partially decomposed cow dung so that earthworms could migrate to cow dung from compost. After two days compost can was separated and sieved for use. After sieving the green club volunteers packed the compost in rice bags for selling it.
