14/7/2023	Kalpana.K 2021MB13	She often took leave and when I enquired about it she explained that her father was not with her and she was the only daughter at home. She was solely responsible for cooking and managing all the household works with her father. As a result she frequently fell ill and needed to take leave. This issue was discussed with her father.	We requested her father to 'prioritize her health.
09/02/2024	Ramy a.V 2021 MB 29	She is very active in all the extracurricular activities apart from studies. But she was getting low marks in many subjects. When I asked her, she said that she didn't have much interest in studies.	I personally spoke to her and assigned a friend, who was performing well academically, to help her study. With additional practice and effort, we were able to improve her academic performance.
