Title : Hands on training in Paper Recycling

Date : 24.01.2024

Resource Person/s : 1. Dr.P.Kalai Selvi

Assistant Professor
Fatima college, Madurai

2. Dr.V.Bharathy

Assistant Professor
Fatima college, Madurai

No. of Participants : 43

Focus on :Entrepreneurship& Skill Development

Outcome :

- Exposed to effective utilisation of waste papers.
- Exposed to the process of converting papers into paper pulp.
- Exposed to the process of converting recycled sheets into paper bags , files and pen stands.
- Increase their Concentration Skill.
- It helps them to develop their entrepreneur skill

Report:

The recovery of waste paper is traditional in the paper and paper board manufacturing industry. The importance of utilisation of waste paper in the paper and board industry should not be underestimated. The major objective of the paper recycling unit in the college is to recycle the used paper disposed of by the students, staff and different sections/departments of the college (administrative, accounts,

computers, library, Principal's office as well as different academic subject departments). It aims at providing training to the students and the teaching and nonteaching staff to make paper by their own hands by using the waste paper of the college. This would raise awareness among all the members of the college community towards paper saving as well as the need of environment protection. One of the basic ideas behind this endeavor is the belief that at least those who prepare recycled paper even once do not waste paper themselves. On 24/01/2024 FIESTA team organized a Hand on training program on PAPER RECYCLING to the SHIFT I AND SHIFT II students between 9.30 A.M-3.30PM. We started with the prayer song, followed by the resources person started with Making Hats in Newspaper and also trained the students to make hats.after that our team members expalined and demonstrate the process of paper recycliong. That is started with paper shredding, followed by conversion of paper shred into pulp, finally the learnt how to convert pulp into sheets. Totally 43 students had participated from different stream.

They felt very happy and satisfied with this training. We felt overwhelmed by hearing their feedbacks.

Students actively participated in the skill training sessions with full enthusiasm.
