Yet there are women whose dreams are yet not realised. Women even in such an advanced world today face various problems in society and in their day-to-day lives.

Sexual harassment is one such evil that is crippling their growth in society. He said that this is something that has to be addressed and rooted out. Women are taught about what good touch is and what bad touch is. But, instead, all boys should be taught about the concept of "DON'T TOUCH", he said.

He also added that women should overcome their inferiority complex and said that each and everyone has different talents among them.

Today, we have the women entrepreneurs everywhere who face the world with guts and face problems very much like working men. Women are capable of doing what they want in a right way by taking right decisions. His speech gave everyone goose bumps and it was a wonderful talk worth listening to as it inspired women to aim high and turn into achievers.
