Department of Sociology and Social Work visited Thirumalnatham village to distributed many saplings and national flag to the village people. After that we went to take part in the Gram Sabha meeting at ThiruvedagamPanchayat. With the presence of Village President, VAO, BDO, Clerk, SHG members, VHN and the members of VillahgePanchayat everyone gathered there to attend the Gram sabha meeting. The meeting started sharply at 11.00am and the President started reciting the queries and the problems the people submitted in the meeting.

They focused mainly on the basic sanitation of those villages. In this meeting, the people who had claimed that there is no drinking water facilities, no sanitation facilities and no proper drainage system facilities.

During the rainy season the people of that village were suffering tremendously due to the stagnation of rainwater especially the people who are resident in the colony which is situated at the Thiruvedagam . This is due to the absence of proper drainage system. Because of the lack of sanitation facilities, the children who are studying in Anganwadi may have a chance of getting affected by various diseases like dengue and malaria.

They have told that they are getting their drinking water by paying money, and the person who are working as a veterinary doctor in that village, he has claimed that even there is no proper door for that veterinary hospital, there seems to be there's no proper safety for the hospitals too. Also they have told that they face many difficulties to get the benefits from government related schemes and programs. Because this is due to the introduction of digital currency, the people who are illiterate, they cannot get benefited. Even though they have the knowledge regarding those funds, it seems to be a long process to get benefit from the government schemes. Finally at the end of the Gram Sabha meeting we have taken an oath along with village people regarding Independence day.

## Extension Report

On August 15, 2023, a group of students from the department of computer science, Fatima College went to attend GramaSabha meeting. The celebrations began with a solemn flag hoisting ceremony at the central community gathering place. The GramaSabha was conducted on behalf of the president Mrs.K.Meenal, Vice President, representatives from each department like agriculture department, educational department etc... and the villagers. The Sabha was all about their plans for people benefits and they also presented a formal report. Then the discussion forum started where they discussed for village welfare. We also distributed chocolates in order to celebrate 76th Independence day. The pledge-taking event brought together the rural community, creating a strong sense of unity. The event kicked off with a tree planting activity aimed at enhancing the local environment and promoting a greener future. Following the tree planting, each participant was given a small flag pin, which they attached to their clothing as a visible representation of national pride.

As the event unfolded seamlessly, a feeling of pride and accomplishment permeated the atmosphere. Seeing families, children, and elders actively participating and engaging with the activities was a testament to the event's success. The shared memories created on this day would continue to resonate and strengthen the bonds within the community for years to come. The adults were very grateful for our visit. They learned a lot about India's independence and they were inspired by the stories of the people who fought for our freedom. They really felt proud on planting trees in the day of Independence.
