ABSTRACT:

Registration is mainly done by the System Administrator for security reasons. The Voter is assigned a secret voter username and password with which she can use to log into the System and enjoy services provided by the System such as Voting. If invalid / wrong details are submitted then the student is not registered to vote.

- Admin Module
- Student Module

Admin Module - Admins are responsible for managing user accounts, including creating new voter accounts, validating voter eligibility, and handling account-related issues.Admin can add, edit, or remove candidate profiles. They ensure that accurate and up-to-date information about each candidate is available for voters.

Student Module - Voters can access information about candidates, including their profiles, statements, and any other relevant details that aid in making informed voting decisions. The voter module is to enable users to cast their votes securely. After casting a vote, the system should provide a confirmation to the voter. This confirmation may include details about the successfully cast vote.
