Welcome to home page

QR code (abbreviated from Quick Response code) is the trademark for a type of matrix barcode (or two-dimensional barcode) first designed in 1994 for the automotive industry in Japan. A barcode is a machine-readable optical label that contains information about the item to which it is attached. In practice, QR codes often contain data for a locator, identifier, or tracker that points to a website or application. A QR code uses four standardized encoding modes (numeric, alphanumeric, byte/binary, and kanji) to store data efficiently; extensions may also be used. The Quick Response system became popular outside the automotive industry due to its fast readability and greater storage capacity compared to standard UPC barcodes. Applications include product tracking, item identification, time tracking, document management, and general marketing. QR code consists of black squares arranged in a square grid on a white background, which can be read by an imaging device such as a camera, and processed using Reed-Solomon error correction until the image can be

COMPUTER LITERACY

Computer Literacy begins with recognizing the common and possible fears individuals may experience upon their initial encounters with this rapidly expanding technology. Awareness is also dependent upon an individual's specific knowledge of computer hardware (including micro, mini and mainframe computers, and peripheral devices) and applications (such as information processing and information sharing). Increasing your knowledge and skills in these areas can be accomplished through various training resources. With training and experience, your overall acceptance and appreciation of computerization will continue to rise. Soon your skill will also increase, and you can then begin to experience the benefits of rapid communication and information processing.

MEDICAL CAMP

Free Medical Camp are set up with a sacred aim to bring awareness amongst the deprived population the country who have access to basic healthcare services or knowledge about the diseases they are suffering from. SO, Medical camps provide free medical advice, medicine to the unfortunate people and refer for specialized treatment or surgery whenever it is required. These camps make sure people are getting the health care at the right time, and seeing doctor early enough before a small health problem turn serious.

Importance of medical Camp:
Medical Camps sre conducted by health professional to carry out a limited health intervention amongst the underprivileged

CENSUS

A Census is the procedure of systematically acquiring and recording information about the members of a given population. This term is used mostly inn connection with national population and housing censuses; other common censuses include traditional culture, business, supplies, agriculture and traffic censuses. The united nations deffines the essential features of population and housing censuses as "individual enumeration, University within a defined territory, simultaneity and defined periodicity", and recommends that population censuses be taken at least every ten years. United Nations recommendations also cover census topics to collected, official definitions, classifications and other useful information to co-ordinate international practices.

MOBILE APPLICATION DEVELOPMENT

Mobile application development is the set of processes and procedures involved in writing software for small, wireless computing devices such as smart phones. Android App usage is changing people's lives and a well-designed app is the most important tool so that people use it to access information.

Students developed two mobile apps – one for the State level Intercollegiate Technical Meet (TECHMEET-2019) of the Department and another for the State level Intercollegiate Cultural Meet of the College (SPRINGS-2K19). The Screenshots of the same is shown below.

MAIN MENU

The screenshot shows the 'ADMINHOME' page of the 'FATIMA COLLEGE EXAM INVIGILATORS SCHEDULING SYSTEM'. The page has a blue header with the college logo and title. Below the header is a red navigation bar with links: ADMINHOME, EXAM DETAILS, ARREAR EXAM DETAILS, ASSIGN STAFF, REPORT DETAILS, and LOGOUT. The main content area is white and divided into two columns. The left column is titled 'Welcome Admin' and contains a list of links: Department, Graduation, Major, Add Session, Designation, Add Subject Details, Add Staff Info, Map Subject For Staff, Master Delete, View Leave, and Sent Mail. The right column is titled 'ANNOUNCEMENTS' and contains links: Announcement, Forget Password, Block Leave, Static Value, and Recalculate Session.

LOGIN PAGE

The screenshot shows the 'LOGIN' page of the 'FATIMA COLLEGE EXAM INVIGILATORS SCHEDULING SYSTEM'. The page has a blue header with the college logo and title. Below the header is a red navigation bar with links: HOME, LOGIN, SIGNUP, ABOUT, and CONTACT. The main content area is white and divided into two columns. The left column is titled 'Login' and contains a form with fields for 'User Name' (with 'admin' entered) and 'Password' (with masked characters). Below the fields are 'Submit' and 'Cancel' buttons. The right column is titled 'ANNOUNCEMENTS'.
