WOMEN EMPOWERMENT ANIMATION & TRAINING

BUSINESS INCUBATOR

Women who are trained in WEAT are privileged as Fatima College is providing them a wonderful opportunity to develop their entrepreneurship skills and capacitate them by starting business incubators within Fatima college campus. Last year four women who were trained in tailoring started their incubator and as a continuation this year too another group of three women started their incubation for tailoring and machine embroidery. On 29.9.2018, Women Entrepreneurship Development Programme was organized in Fatima college premises, nearly 100 women participated in it and benefited.

VILLAGERS EAGERLY RECEIVING THE SEEDS

TRAINING THE STUDENTS ON ORGANIC FARMING

Criterion : III – Research, Innovations and Extension

Metric : 3.3.1- Community Orientation

Year : 2015 - 2020

MONITORING THE GROWTH OF PLANTS

After distribution of seeds, the growth of the plants was closely monitored by our students. They went to the houses of those who received the seeds and saw the growth of the plants. They were delighted to see the young shoots and the villagers were proud to show off the fruits of their labour. This regular monitoring encouraged the villagers to grow them with more care. Our students have paid five visits so far to trace the growth of plants.
