

**FATIMA COLLEGE (AUTONOMOUS), MADURAI-18**

**DEPARTMENT OF COMPUTER SCIENCE**

**Title : TWO – DAY ONLINE WORKSHOP ON RED HAT LINUX**

**Date : 05-06-2020 & 06-06-2020**

**Resource Person/s : Mr. Naveenkumar Ravindran, RED HAT ACADEMY**

**No. of Participants : 66**

**Focus on : Skill Development**

**Outcome : Understand the basic concept of Linux and able to perform fundamental operational tasks in a near or remote Linux Machine.**

**Report :**

The department of Computer Science organized a two day workshop on RED HAT LINUX combined with RED HAT and School of Linux on 5<sup>th</sup> and 6<sup>th</sup> June of 2020.

This workshop provided a basic introduction to Linux skills using Red Hat Enterprise, explained the organization of Linux systems, and demonstrated system administration tasks. This session made the participants practice on their own.

Participants were introduced to reasons why Linux and the open source development model are so important in today's computing environment. Linux systems are used everywhere—the internet, point-of-sale systems, and the world's stock markets. Linux skills are in high demand.

At the end of the session, participants have a solid introduction to working with Linux from the command line, using Red Hat Enterprise Linux 8 as a model. In applying these skills, they will be able to perform fundamental operational tasks, whether their Linux machine is on their desk or on a remote system across the Internet.
