PLACEMENT WORKSHOP REPORT 2020

On 19th December 2020 the placement workshop was arranged for MCA final year students. The key speaker for the workshop was Mr. K.Sabari Nathan, Business Fraud Analytics Manager, Citi Bank, Kuala Lumpur, Malaysia.

The first session gave an overview about Big Data Analytics and it also explained various Big data technologies. The second session created a practical impact on Hadoop installation and working of hadoop.

FIRST SESSION:

Mr. K.Sabari Nathan started the session with the definition of Big Data. "Big Data is an evolving term that describes any voluminous amount of structured, semi-structured and unstructured data that has the potential to be mined for information". In simple words, Big Data is a pure technological term. Big Data is often characterized by 3Vs - Velocity, Variety and Volume.

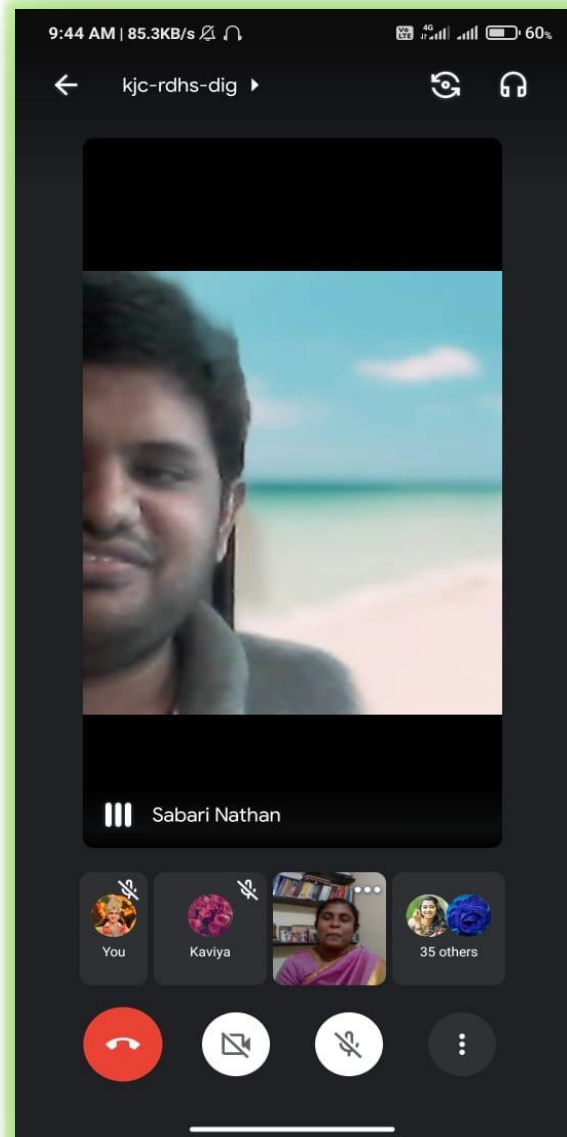

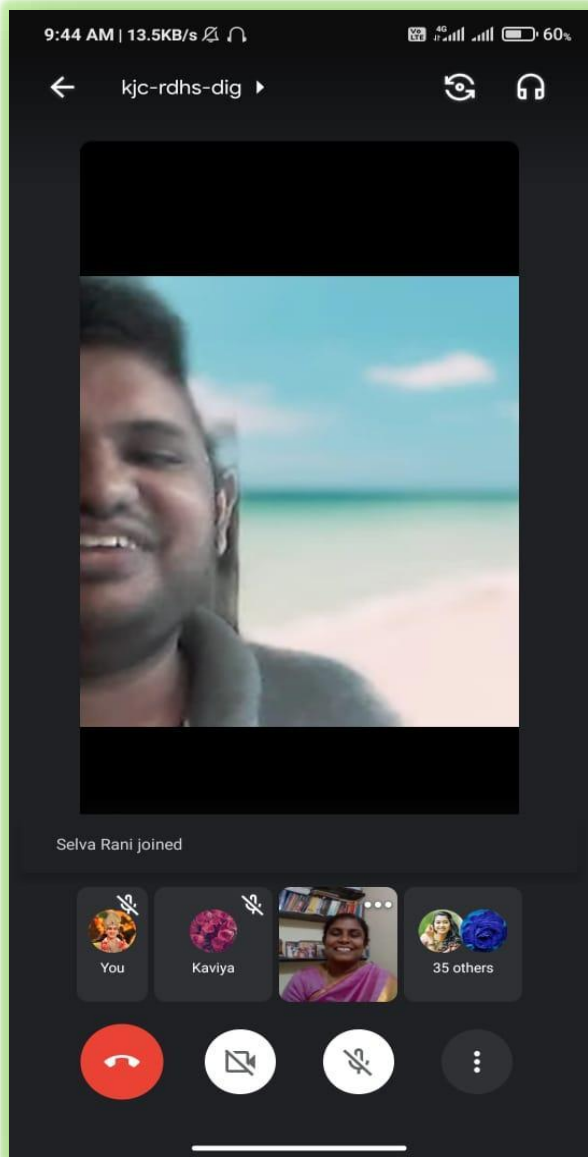

He also discussed how to Collect, Process, Clean and analyze Data. He also specified the benefits, applications and challenges of Big Data. He also shared about the 6C system, 4V's and various components of analytical Big data. He also spoke about Big Data Technology, Career Opportunities portal

SECOND SESSION:

In the second session, Mr. K. Sabari Nathan focused on Hadoop Architecture, hadoop installation steps and also working on hadoop, various VMware Player, installation and HortonWorks SandBox Introduction. The session was about giving practical exposure using Hadoop with the help of various examples.

Students found the workshop very informative and interactive. Participants realized that Big Data and Hadoop is the cornerstone of business technology agenda.

This workshop helped the participants to get acquainted with a must-know technologies like Hadoop.
