GREEN CLUB REPORT 2017-2018

ACTIVITY VI

Date: 05-03-2018

Time: 02:00pm –03:30 pm

No of Participants: 20

Venue : Zoology Dept.

Programme: Vermicompost Preparation

The preparation of vermi bed using 10 days old cow dung was initiated on 05.03.2018 in a container measuring 10 cm X 10 cm X 30 cm. Periodically water was sprinkled to ensure the humidity and facilitate formation of vermicompost. The mouth of the bucket was closed with wire mesh in order to prevent the entry of other insects and species which destroy the earthworm.

Outcome: Students have learnt about the preparation of vermicompost.
