YOUTH RED CROSS of FATIMA COLLEGE

Report on Planting Saplings

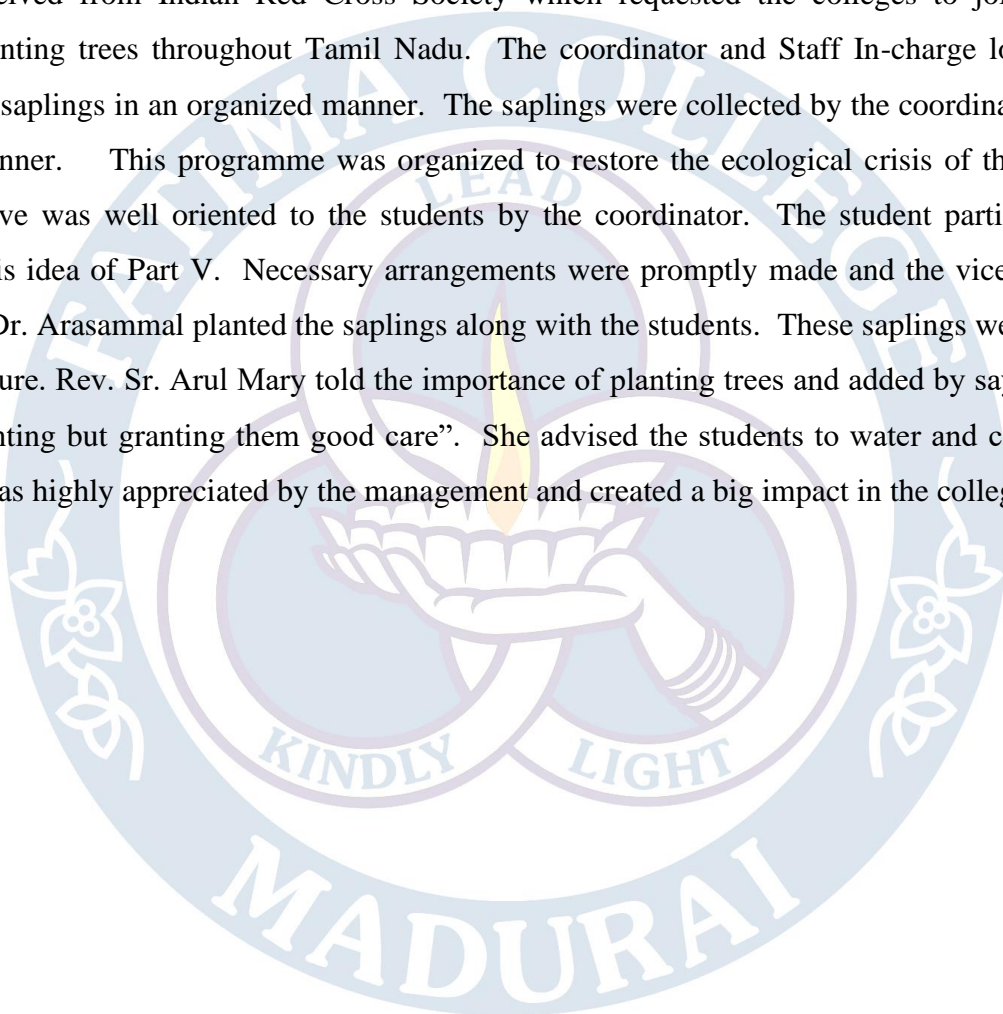

“True meaning of life is to plant trees”

Date: 27-09-2019

Time: 10 am - 12 pm.

Venue: Fatima College, Madurai

The Youth Red Cross of Fatima College launched an extensive tree plantation program in accordance with information received from Indian Red Cross Society which requested the colleges to join hands with their programs of planting trees throughout Tamil Nadu. The coordinator and Staff In-charge located places in the campus to plant saplings in an organized manner. The saplings were collected by the coordinator and the students in a diligent manner. This programme was organized to restore the ecological crisis of the present day. The afforestation drive was well oriented to the students by the coordinator. The student participants were highly motivated by this idea of Part V. Necessary arrangements were promptly made and the vice principals Rev. Sr. Arul Mary and Dr. Arasammal planted the saplings along with the students. These saplings were also fenced to be monitored in future. Rev. Sr. Arul Mary told the importance of planting trees and added by saying “we should not stop by just planting but granting them good care”. She advised the students to water and care for the saplings. This initiative was highly appreciated by the management and created a big impact in the college premises.
