Planting Palm Trees**

Name of the Department	: Chemistry department
Name of the village	: Achampatti
Name of the Activity	: Planting Palm trees
Number of Beneficiaries	: Villagers
Number of Students involved	: 21
Date of the Activity	: 13-10-2018

One of the biggest problems that should be addressed is the water scarcity that is the lack of sufficient water resources to meet the demand of water. Lack of water is the main cause for all the most important problems in agriculture, health, economy and weather conditions. Various steps have been taken to solve this problem, i.e., to store water by constructing new dams, harvesting rainwater and so on. One of the biggest movements taken to address this issue is by planting “Palm trees”.

Palm trees are a very special kind of natural solution for this problem. Keeping all the benefits of palm trees in mind students of the Chemistry department collected a good number of palm seeds from the palm fruit. Relatively dry areas in and around the Achampatti village were chosen to plant the palm seeds with the help of villagers.

Students are planting Palm seeds in Achampatti village
