Winways is one of the pioneers in the country in adopting Open Source based technologies in its products and services. The open source adoption benefits the client in many ways and the fact was strongly endorsed by our former President of India Dr. Abdul Kalam. We advise all our clients to take time to learn the advantages of open source based technologies and design their internal technical strategies accordingly.

With reference to the discussion we had with you, here with we have enclosed a detailed proposal with investment data for your kind perusal. Please browse through our most competitive proposal and provide us with an opportunity to serve your esteemed organization.

Dear Sir

Sub.: Proposal for Annual Maintenance Contract

We here by submitting the proposal for providing support for the following categories for a period of one year, the scope / quantum of support has also been given clearly in the proposal.

1. Domain & Hosting Maintenance and Renewal of Web Space
2. Enabling Third Party Security Tool "SITE LOCK"
3. Maintenance of Software Supplied So Far

**Hosting Support and Web Space Renewal**

We are handling the hosting activities of College website and other softwares developed specifically for "The American College".

Every year the software applications hosted on the server is getting increased and hence the data base size getting increased drastically. Currently we are providing sufficient space to accommodate the current and future requirements that is expected for next one year.

**Enabling Third Party Security Tool "SITE LOCK"**

This is the basic third party security tool to protect our website by executing Application scan, SMART scan, Malware scan, SPAM scan, Sql Injection scan & XSS scan on regular interval. After enabling this, the website is protected to some extent and currently the server issues have been drastically reduced.

To our view, the protection that we have given to our web site is very minimal, as you are planning to add more and more modules on the server the dependency on the server is getting increased and so it is the time to implement the replication facility to protect your valuable data, reduce the down time and increase the performance.

#### Maintenance of Software modules Supplied So Far

We have hosted the following modules on [www.fatimacollegemdu.org](http://www.fatimacollegemdu.org). Maintenance of these modules is also essential for trouble free operation.

- Website Management
- On-line & Off-Line Fees payment module
- Result Publishing Module
- Pre-Admission & Admission Module
- NME & EDC Module
- Server Maintenance
- Online Course Management

Expecting your valuable consideration, get back to us for any clarifications.
