1. Introduction

1.1 About ROVAN

Rovan Software Solutions (P) Limited (ROVAN) is a leading software company serving colleges and schools since 2002. We help them to use the resources better and serve the students better.

We are a member of NASSCOM, The National Association of Software and Services Companies in India.

Vision

> To make education administration better

Mission

- > To offer quality software solutions to educational institutions
- > To offer good support to ensure smooth running of the software

Solutions

- ROVAN IMS Education ERP
- ROVAN EMS Examination Management System (exclusively for Controller of Examinations' office in Autonomous Colleges)

ROVAN LMS – Library Management System

Founder

V.Muneeswaran is the founder and director. He worked in Tata Infotech (merged with Tata Consultancy Services later) as Systems Engineer for three years from 1999-2002. He has good experience in managing database driven projects.

V.Muneeswaran is a mechanical engineer graduated from Government College of Technology, Coimbatore in 1999.

1.2 About ROVANIMS

ROVAN IMS is the College ERP Software / School ERP that helps to manage your institution better. It helps to use the resources better and serve the students better. Using it you can achieve efficient and stress free administration.

ROVAN IMS is easy to learn and easy to use. It is a multi user system. You can use it as an intranet or internet application.

ROVAN IMS has been built using PostgreSQL as the database and Apache as the web server and PHP as the scripting language.

1.3 ROVAN IMS Benefits

- > Integrates all the activities in the institution
- Shows the pending fees instantly
- > Helps to take preventive action in student attendance
- > Quick and easy exam result analysis
- > Finds bus wise / route wise profitability
- > Controls student activities in the hostel
- > Bio-metrics based attendance control for staff
- > Better Assets / Stores / Canteen / Mess management
- Student Login facility for each student
- Prints TC and other Certificates
- > SMS / Email / RFID / Barcode Integration

The Principal / Teachers can view complete information about a student in a single screen. It will show the personal details, fees particulars, attendance details, mark details, library activities, hostel activities and transport details.

This empowers the Principal / Teachers to face the parents with accurate data and have a worthy discussion about the future of the student.

The same data can be shared with the students / parents through Student Login Module. This ensures a healthy flow of information.
