A video about Fatima College was played and the resource person on the day Dr.Kyle David Anderson was much impressed about Fatima and shared his expertise on the topic: "**Global service learning as a catalyst of Social change".**He spoke about what is Global learning and global service learning. He highlighted that Global service learning is built upon the traditions of global learning and how it is used to understand Global Service Learning being important in the current scenario and also rising rapidly.

The main reason for Fatima College to conduct an international conference on Global Service Learning is that the students need to get exposure to various communities at Global level. This was well comprehended by our speaker and he was able to get a hang of it through the continuous talks from the institution. He also commented that how virtual learning is helping Global service learning and making it an experiential one during this current scenario.He also insisted for setting up many more virtual pathways where everyone could get together and work with the community partners to find solution for local problems.

Day: 3

Dr.S.J.Kala, Dean of Academic Affairs(Arts) was the host of the day. The speaker who enlightened the audience today was Dr.DianePerpichand spoke about "Global Service Learning: Challenges and Strategies Adopted". Dr. Diane set the tone to the audience that she was fairly new to the concept of Global Learning and Global Service Learning. Thus, she made it clear to everyone that she will be not providing an expertise about the topics, but would be explaining how service learningis done and implemented in Clemson University.

She briefly explained about their program in women leadership in Clemson University and then she went ahead with how they collaborate and work with SEVA the organisation in India.Apart from Dr. Diane, Mr. Joseph Stephen, Senior Coordinator, Extension Department of SHEPHERD, St. Joseph College, Trichy briefed the audience how things are done in the program called SHEPHERD.

There were certain queries asked to the speakerand one question that she found very keen was, what was the difference that you witnessed on Global Service Learning in India and USA? (i.e.) what did the students of Clemson University felt different about the curriculumin these two countries? Dr.DianePerpich responded that the students in Clemson had to opt for project oriented learning in the curriculum. Initially domestic violence was identified as one of the projects for community service in the United States and that made the students to help the victims of domestic violence. Similarly in India they were able to relate the same violence against women with whom they were living in the cities. More than the difference their students were able to understand similarities in violence against women despite the vast geographical and cultural differences in both the countries.

Day: 4

Ms. A.Mable Jasmine Shobha, Dean of Academic Affairs (SF) was the host of the day. Ms.Phinu Jose the speaker of the day spoke on the topic "**Global Service - Learning for Glocal Service – Learning**" and shared her expertise in the said topics through her experience of being aservice learning student from various activities that she had undergone during her school, college and also at Christ College (deemed to be university). This learning shared via her experiences made it more interesting for the audience and they wereenjoying the session very much.

Among the few queries asked, one was "How do you manage to educate hyper active village children who are keen to use mobile phone and play around rather than attending the class/ school?"To which she replied that the model created to educate these children was acquired afterrealizing that the teachers involved in these service learning were never to be forced in doing the work, but were expected to do out of sheer joy in educating and empowering the children and only then, a connect was formed between the teacher and students.

Day:5

The host for the day was Dr.Sr.Bindu Antony , Vice Principal, Fatima College. Sr. Arul Vinnarasi, Director, ROSA,Fatima college welcomed everyone for the session. The day was presided by Dr.R.Balasubramaniamand he shared his expertise on "**Global Service Learning : Strategies and Scope for Global Partnership**". The key learning's fromhis session were on the best practices adopted for Global Service learning outside India. Focus was more towards making the students understand that how do we work in making the world a better place to live in and making them to realise the larger picture of doing good is necessary.

He clarified the queries like: How to bridge the gap between classroom learning and community service learning? He answered to it saying that one should first understand the central idea is learning in any medium and the dimensions are different through which learning takes place.Further clarified that the could be also explain the process of hierarchical learning and the distribution of the expertise model.

REPORT

FATIMA COLLEGE (AUTONOMOUS), MADURAI
WORKSHOP
ON
"OUTCOME BASED EDUCATION-II"
24.11.2018

"The illiterate of the twenty first century will not be those who cannot read and write, but those who cannot learn, unlearn, and relearn"-Alvin Toffler

Aiming to provide an intense training on qualitative higher education, the Management of Fatima College arranged a workshop on outcome based education to the staff members of Fatima College. Welcome remark was given by Dr.Malathi, Department of Zoology. She introduced the resource person and gave an outline about the objective of the workshop. The program was taken over by Dr.M.G.Sethuraman, Professor, School of Chemistry ,Gandhigram Rural Institute.

Welcome remarks by Dr.Malathi

Having a rich profile and great experience, he gave an overview of the history and present scenario of higher education. He pointed out the distinct gap between generations of what is taught and what is expected in the industry. He substantiated such ideas with his real life experiences and from the stories he read. He listed out the stakeholders of education: Industry, parents, government, civil society and educational institutions. He said that the uniqueness of higher education lies only if these stakeholders are linked.

He gave tips on how to design the curriculum. It should not be a mere copy paste option but should be creative to improve the standard of students. He highlighted the issues to maintain standards in the higher education. To name a few: Gap between theory and practice; new branches of studies; traditional method of teaching and lack of soft skills.

Dr.Sethuraman addressing the staff members

He added by saying quality improvement can happen only if there are changes in time and sophistication in technologies. He gave a detailed analysis on NAAC metrics and how to implement it in a positive way. He created a cheer amidst the audience by sharing the do's and don'ts of the action words for outcomes. He emphasised the importance of curriculum design as per OBE norms. He briefed the taxonomy of cognitive levels for learning objectives as proposed by psychologist Benjamin Bloom.

Interaction with staff members

The session sailed ahead with a practical experience. The staff members were asked to frame the course outcomes following the new metrics. A range of points emerged which was summarised and presented by the staff members.

Dr. P. Shyamala, Head, Department of Management Studies, presenting the model Course Outcome

Therefore the workshop was intellectual and interactive. It was a platform to learn, unlearn and relearn. With that as an end note the program was a success.

IMPLICATIONS OF THE NEW EDUCATION POLICY: A DISCOURSE ORGANISED BY IQAC 10.08.2016

National Education Policy: A Discourse was held on 10.08.2016 at Fatima College, Madurai. Ms.Vimala, Associate Professor (Dept. Of Computer Science) welcomed the chief guests and the gathering. Ms. Vimala, also extended her pleasant welcome to the ever supportive Secretary of the college, Rev.Sr.Dr.Francisca Flora, dynamic principal, Rev.Sr.Dr. Fatima Mary and all the vice Principals. Representatives from various colleges, schools in and around Madurai participated eagerly in this forum to know about the minutiae of the upcoming National Educational Policy that is going to be implemented very soon. Outstanding educationalists and professors were invited to share their expertise and understanding on the National Educational Policy.

IMPLICATIONS OF THE NEW EDUCATION POLICY: A DISCOURSE

Bird's eye view of New Educational Policy was explained by Mr. P. Vijaya Kumar, Secretary of the Indian School of Social Science, Former General Secretary of MUTA& Former Senate member of the Madurai Kamaraj University. New Educational Policy – Secularism and Pluralism was detonated by Mr. P. Rajamanikam,(Dept. Of Zoology Saraswathi Narayan College).Vice President, All India People's Science Network&Former State President, Tamil Nadu Science Forum.New Education Policy – Social

Justice was made clear to the gathering by Mr. P.B. Prince GajendraBabu, General Secretary, and State Platform for Common School System, Tamil Nadu &National Executive, and all India Forums for right to education. He has raised his voice to resist the dangers of commercialisation and communalisation of education. He rightly pointed out the increasing craze for CBSC schools by clarifying the stands of SamacheerKalvi and mother tongue based education. He enlightened the young minds by giving career guidance in various forums and TV talk shows. He also appealed to the parents to treat their children with dignity and not as mark producing machines. Following the welcome address, the three chief guests began their expertise under the specific topics.

Bird's eye view of New Educational Policy - Mr. P. Vijaya Kumar

Mr. P.VijayaKumarbegan his speech by stressing the importance of the New Educational policy at national level. He appreciated IQAC of Fatima College & said that such debates should be encouraged in every university and college in India. He criticized the shortcomings of the MHRD which failed to translate the policy into various regional languages of India before getting their approval at the same time he appreciated Mr. Prince GajendraBabu for translating the draft. He gave an alert to the gathering regarding the policy as an 'impending danger.' At the same time he also called the crowd not to get frightened by the policy but stand against it with confidence and unity. The speaker explained the various Indian education commissions like Dr.Radhakrishnan commission of Education and Kothari commission (1966) that gainedinternational prominence.He was questioning the need for a new educational policy when many aspects of the former commissions have not been implemented. The main content of the speech was– 'why this New Education Policy?'

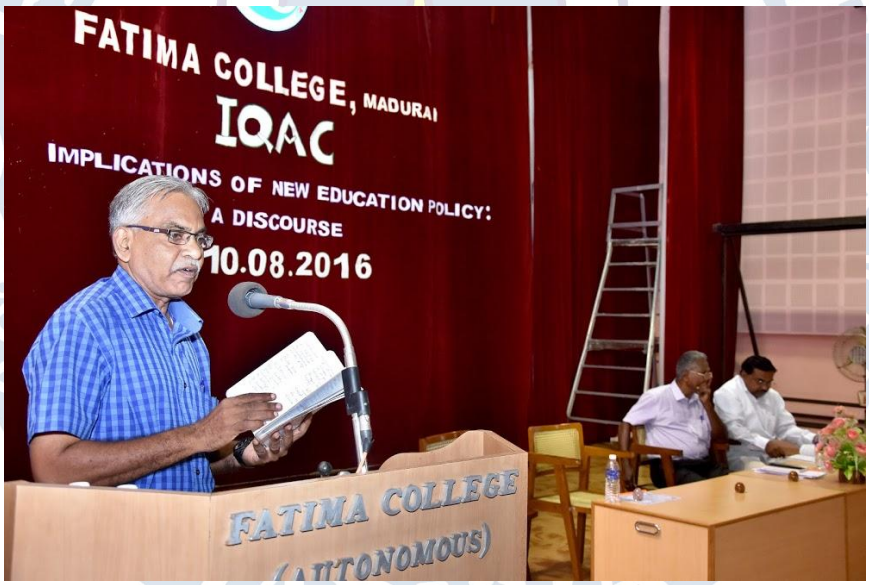
Prof.Vijaya Kumar addressing on Bird's eye view of New Educational Policy

He culminated his talk by telling audience not to be disheartened by this impending danger but called out to stand against it with confidence. He also appreciated the IQAC of Fatima College for conducting such a forum.

New Educational Policy: Secularism and Pluralism - Mr. P. Rajamanikam

Mr. P. Rajamanikam, Former State President, TamilNadu Science Forum and Former Secretary, All India People's Science Network, began his speech by thanking the institution and the representatives from other institutions for giving him this opportunity to talk about the New Educational Policy. He stressed that he is not talking against the government, but he is against the government which is not following the preamble of the constitution. Preamble of the Constitution was formulated on November 26, 1949. According to this social, political and economic justice should be followed and liberty of thought, expression, believes, faith, worship and freedom to differ should be granted to the people. He voiced that all the above rights should be granted for every individual. In the previous year's advertisement given by the government the word 'socialistic secular' was removed. He then elaborated about the New Education Policy.

The New Education Policyis the third policy amended by our government. The first one was called as Kothari commission amended on 1966, it was formulated for self lined economy. In 1986 Rajiv Gandhi policy was amended for the initiation of the global process. Now in 2015 Mr. Modi's government has amended the New Education Policy for the new liberal policy and communalism. He described how the government consulted the people to get their opinion about New Education Policy. In Tamil Nadu there were 32 districts; authorities from 32 districts were called by the government to get their opinions. It was conducted in three districts like Chennai, Coimbatore and Madurai and they covered all the 32 districts. In state, government programmed a video conference session for one and a half an hour and they collected the opinions of the higher officials. These opinions from different people were not brought to lime light. Then the government formed TSR Subramanian committee. They gave a draft for about 234 pages. In the month of July government released a short draft for about 43 pages. Through this the government has created confusion among the people.



Prof.Rajamanikam lecturing on New Educational Policy: Secularism and Pluralism

He then described about the components of New Educational Policy. Vedic education system is the best education in India, Value education for students through religious tradition; yoga is mandated for all students from KG to twelfth and promotion of Sanskrit is the few components of New Education policy. He questioned the role of government in giving quality education to the people. According to him all the three education policies are contrary to each other. He concluded his speech by saying that whoever may be the ruler we the people of our country should take vows to safe guard the preamble of the constitution.

New Education Policy: Social Injustice - Mr. P.B. Prince GajendraBabu

The guest speaker, Mr. Prince GajendraBabu began his speech with the process of learning and importance of education. He said that education is the human building, social building transformative process. He quoted some lines from texts like "Thiruvarurtpa" and set philosophical and scriptural examples of Philosophers like Vallalar, Prophet Mohammed, the Lord Jesus Christ and scientists like C.V. Raman and Albert Einstein to insist on learning. He said that Sir. C. V. Raman, after the success of his research on physics said that it was the work of Buddha, founder of Buddhism that turned him to learn physics.

Mr. P.B. Prince GajendraBabuaddressing on New Education Policy: Social Injustice-

The guest speaker said that learning policy is otherwise known as the educational policy but the irony is that the so called "Learning" was missing in the new education policy. The initial outlet that the Government released for about forty seven pages had no proper evidence of sources and they were mere inputs set to get the opinion since the final draft was not yet confirmed. He called the committee, "Subramaniam Committee" which played the role of a parent document before the release of the policy of education.

He said that the women were the most deprived of all fields and sets as they are deprived of their basic rights and needs. He questioned the absence of the female faculty in the board of five member committee of IAS officers. He added that the "Subramaniam Committee was made as per the Government order. The inputs were made under thirteen titles and eighty five questionnaires. The committee was formed in October and it should be reported in the month of December. It was said by the committee that about 2.75 Lakhs of consulting meetings were held separately for schools and higher education in two months. On 27.7.2016, the authentic document of MHRD was released to the people to view which was in English where Hindi was supposed to be an official language. He also spoke about the denial of releasing the final draft of policy by the union minister of Human Resource, Ms. SmritiIrani as she was firm with her statement that the draft was already made after the consultation with the people of various Government institutions, teachers etc.

Mr. Prince insisted on the importance of mother – tongue language in education as it would directly reach people without confusion.

Some people expressed their discontentment with the Dravidian political parties as they shunned people from learning national languages like Hindi. He also said that English language was insufficient for international studies. There are different types of communication in English and one has to clear respective courses like TOEFL, IELTS etc in countries like the United States and England. One cannot sustain in countries like France and Germany without knowing the language they speak.

The guest speaker asked why the Government did not provide funds to twenty two languages spoken by the people in India.

He opposed the enforcement of Vedic knowledge in the name of implementation. He delineated stories of Vedic history and culture as examples as the education of Gurukul system would ruin the students based education system. He insisted on equal and democratic way of education to be provided to students. The committee decided to establish schools to people under difficult circumstances. Equal access to school education would not be provided to such students who were socially, physically and economically deprived.

Academically weak students would be identified for remedial courses which were actually vocational courses and students who belonged to such courses would not be able to pursue higher education in sciences and mathematics.

High school students would be asked if they would like to pursue sciences or other vocational field of knowledge and once they chose would never be able to pursue subjects like Science and Mathematics. He also said that it would be futile to bring education through internet to students who are children of bond labourers. He emphasized on the point that such ideas would create conflict among minority and non minority students.

Regarding the policy pertaining to teaching and teachers, they would not be able to continue their office without tests conducted by the Government at regular intervals. License would be given to the teachers based on merit ensue the rejection of scholarships provided to them on the basis of caste. The Government had decided to expand the institutions rather than establishing new institution in places where the need of the education is high.

Rev. Sr. Dr.K. Fatima Mary principal, Fatima College enlightened the audience on new educational policy

Following his speech, the discussion among the participants and the guest speakers took place. Rev. Sr. Dr.K. Fatima Mary principal, Fatima College clarified that the discussion aims at an enlightenment regarding the new educational policy, its overall implications and not from the view of minorities alone.

Finally Ms. D. Catharine Dhipthi, Assistant Professor of Mathematics (SF) proposed the vote of thanks.

SEMINAR ON AVALANCHE IN HIGHER EDUCATION

ORGANISED BY IQAC

Dec. 19, 2015

Rev. Father Joe Arun delivered a lively session on the Avalanche in Teaching-Learning process today and ahead in the world of fast developing technological scenario. Teaching is not transfer of knowledge but a teacher is "Behaviour Transference". Teaching is a passion and institutions grow by passionate teachers not by building bricks. A good teacher cannot be trained since teaching is not a profession, it's a passion. A teacher's decorum impacts the students. Teaching is a constantly changing process and a teacher should change to equip oneself.

How to change? The attitude of a teacher on life or the environment has an impact on the student. Positive attitude radiates positive energy and there is growth in world view. Negative attitude stunts growth. Human agency is passive or active. Do I do on my own or do I do as prompted by the world around? Today education happens one cannot make it happen. Each individual is in-charge of one's own life. Learning which is part of teaching is affected by the way one looks at life.

The next most important factor for a teacher is "Health". A healthy mind forms a healthy body and together makes a Happy Teacher. Meditation, exercise, good eating habits and and nutritious food are necessary for a teacher. To nurture all these a teacher should have a wonderful, happy and peaceful home. Rev. Joe Arun illustrate all these factors that make a Healthy and happy teacher whose very presence throws happiness and pleasure of a class on each student.

A teacher plays a vital role in character formation of each of her student. Her prime aim is to form an Able, Capable and Employable graduate. Besides these Life Skills should also be taught to them to make them Marriageable.

He also pointed out that virtual learning is creeping fast through digitalization and online courses in Higher education institutions. Hence a teacher should follow three ways of learning in all ways of teaching – 1) to thirst to know the new 2) to question assumptions and 3) to know one's ownself. The session ended with an excellent quote "Minds are parachutes, they work best when open ".

The inputs of this gave an overview of a "Good Teacher Behaviour".

PARADIGM SHIFT INHIGHER EDUCATION –

New Realities, Challenges and Metrics

REPORT OF THE SESSION

Dr. Alexander PravinDurai is our college IQAC External Expert. He gave a detailed talk on New Higher education policies. He said that the Institutions of Higher Education will ranked and categorized on a global level. There are three ranking categories:

1) Institution of Intellectual Ranking – to compete with global research, patents and Intellectual Property Rights (IPR)

2) Institution of Economic Ranking – Hi-tech teaching tools, produce professionals

3) Institution of Social Ranking – provide education for the socially backward classes

The New Higher education policies cater to the above ranking. The following are the highlights of the same

1) Knowledge should be converted into skills

2) Education should be "for profit "institutions

3) Performance based funding in future

4) Move from permanence to performance

5) Vocational courses – skill based papers formed in accordance with NSDC (National Skill Development Council) – train students and output evaluated by SSC (Sector Skill Certificate)

6) Placement Assurance – coordination with leading companies- Public Private Partnership (PPP)

7) Teacher training in Higher Education

8) Credit transfer systems –Massive Open Online Courses (MOOC) for distance online learning

9) Education to be globalized – Foreign exchange courses

10) Research is outcome based (i) impact factor (ii) patents

Following the details of the new policies, Dr. Alexander suggested a few Best Practices:

1) Life skills acquisition – introduce life skills for first years

2) ICT infusion – e-content – video shoot class room teaching

3) Library – 30 hours per paper for each student outside class – monitor and give relevant assignments on this . Give internal marks + 5 marks for attendance

4) Internship compulsory

5) Self-learning paper one compulsory – one staff for it (no work load) but exam/evaluation by the staff

6) Comprehensive viva – UG – 2 credits

7) M.Phil. – e-content all papers.

Based on the expected changes in Higher education, a college should identify the strengths of each department and build a Brand Value for the college to meet the global challenges. With regards to the weaknesses, new strategies and plans have to be rigorously implemented to raise the quality. Thus, this eye-opening session through the doors open for each staff to work on the challenges that lie ahead of this Centre of Potential.
