**Webinar on National Education Policy -**  
**22.09.2020**

The program started sharp at 1:00pm. Dr. Jesintha, Assistant professor, The Research Centre of Tamil welcomed the dignitaries and the participants. The participants comprised of staff, students from Fatima College and people from the UBA and adopted villages. The National Education policy proposed by the educational ministry has been a very controversial topic and has been opposed by majority. In order to attend to the recent announcement on the National Education policy, a webinar was jointly organized by "Unnat Bharat Abhiyan-2.0" and "Reach out Society through Action (ROSA)" of Fatima College, Madurai.

Sr. Vinnarasi, Coordinator of UBA and ROSA, Fatima College briefed the students on the ROSA programme. She explained the various activities done by the students with the help of their professors and the village people in the adopted villages. Activities like computer literacy, cleaning of schools and villages, entrepreneur training, language teaching, kitchen gardening and much more have been performed in the villages. The students work whole heartedly with a service mind to uplift the people from rural areas. She proudly stated that the active contribution to the villages ensured Fatima College's presence in MHRD-UBA 2.0.

An introductory talk on NEP was given by Dr. M. Ragam, Coordinator (Shift I), NSS and Assistant Professor, Department of Physics, Fatima College. She started with the brief introduction to the four parts of the New Education Policy. 1. School 2. Higher Education; 3. Points to focus and 4. How to implement the policy – these are the thrust areas in the NEP, she said. She also stated that it has been 30 years since the education policy was reformed for the second time. The new education policy was introduced and heavily debated on, in the year 2019 and is now in the next stage. The policy stresses on the foundation course that has

to be offered to children who are 3 years old. Thereby stating that a child should start its education when it is 3 years old. The syllabus for the foundation course will be formulated by NCERT. The syllabus will focus on teaching the children through games and other activities. The financial support for education will be increased to 6% from 4.43%. Literacy Numeracy will be introduced. A health card that will monitor the health will be given to each student. Schools will be digitalized with smart classrooms and digital libraries. A new syllabus and teaching method will be introduced for the differently abled students. Mother tongue will be given more importance; hence all teachers should know the local language. The assessment pattern is to be restructured with public exams in standards 3, 5, 8, 10 and 12. Standards 9 to 12 will be in semester pattern. Three language formulas is to be adopted nationwide. The policy aims to be multi-dimensional. Vocational courses will be made mandatory from standard 6<sup>th</sup> onwards. NTA will conduct exams and assessment will be made by NAC. Thus the student's performance will be graded nationally.

No temporary teachers will be appointed. Every teacher should have finished CPD to be employed. The education will be gender inclusive. Large class with small schools will be converted to small class with large schools. SSA will monitor the cluster schools. Syllabus will be light but tight she said. GER is aimed to 50% in the coming years. Not more than 300 colleges should be under one university. College education needs to be holistic to be approved by the university. Multiple entries and multiple exits will be employed at the college level. Academic bank of credits will be maintained for each student. Internationalisation in Indian Higher Education standards will be implemented to enable foreign student exchange. SWYAM and MOOC courses are made available for students and teachers.

Dr S. R. Poongodi, Assistant Professor, Department of Tamil (Shift II) added on to the information provided on NEP. She stated that for 30 students one teacher will be appointed following the 30:1 ratio. From the year 2025 onwards from 5<sup>th</sup> standard the quality of *eluthuarivu* and *ennarivu* will be ensured, she said. From the age of 3 to 6, free and quality education will be provided for every child. She stressed on the importance that will be given to the differently abled children as well.

Sr. Vinnarasi then explained some of the challenges that come with the implementation of NEP. Since exams like NEET will be made mandatory for all sorts of higher education, many

might not get the education they need she said. Schools in villages are in the danger to be transformed as adult education centres, this questions the famous saying of Gandhi who said “India lives in its villages.” The multiple entries and multiple exits approach will increase the number in college dropouts she said.

In the last session, the students expressed their ideas and opinions on NEP. The questions they raised were answered by Dr. M. Ragam and Dr. S. R. Poongodi promptly. Ms. Suga Priya, says, “National educational policy seems good if we just see from outside but when we go deep into it there are lots and lots of difficulty in this policy. Sudden implementation of this policy will affect village school students, definitely this policy will lead to many drop outs. There are lots of difficulties and in my point of view it will not work out.” Ms. Priya says, “This session was very helpful to know the merits and demerits of NPE 2020. After our independence for the past 10years there is not much development in education sector, but after the establishment of NEP our educational level will be decreased. So as the citizens of India we should join and raise our voices against it.”

The program ended at 2 pm with a vote of thanks delivered by Dr. Jesintha, Assistant Professor, The Research Centre of Tamil.
