

FATIMACOLLEGE(AUTONOMOUS),MADURAI-625018
PROGRAMME SPECIFIC OUTCOMES

NAME OF THE PROGRAMME: B.Sc Chemistry

PROGRAMMECODE: UACH

PSO1:	Thorough understanding of all basic concepts and theories pertaining to Chemistry
PSO2:	A comprehensive view of bonding, structure, reactivity and stability of chemical species.
PSO3:	An overall perspective view of physical principles that govern all physical and chemical transformations.
PSO4:	Basic knowledge about instrumentation involving UV, IR, ESR and NMR
PSO5:	Hands on experience of laboratory experiments both qualitative and quantitative
PSO6:	Project undertaking enables presentation of results and strengthens the learners in lab to land procedures that nurture societal need and environmental protection.
PSO7:	Diversified informative sources that equip learners to enter varied fields
PSO8:	Additional in-puts of using appropriate software related to Chemistry and chemical calculations
