Meditation in Action Movement Report-2019-20.

INTERNATIONAL YOGA DAY REPORT

In today's environment, many people are suffering with stress and anxiety of day to day living and are finding themselves unable to cope up with life's little emergencies. Prescriptions of drugs are on the rise due to the increasing need for people to deal with their stress and anxiety. However, many people are searching for ways to be less stressed and live a happy and healthy life without drugs. In this situation yoga and meditation plays a vital role in relieving their stress and anxiety.

Realizing this, Fatima College encourages all students to practice Yoga and Meditation in their everyday life. Awareness on the significance of Yoga and Meditation is spread through celebration of International Yoga Day too.

In commemoration with International Yoga Day, guest lecture entitled "Yoga and Meditation for Excellence" is arranged on 21.06.2019. Yoga Trainer "Mrs. R Suriya Praba, M.Sc in Yoga and Meditation" delivered lecture and explained different yoga poses and narrated their benefits, if practiced regularly.

Nearly 2210 students did various stress relieving yoga exercises in Regular and Self finance sections in the presence of Secretary Dr. Sr. Fransica Flora and Principal Dr. Sr. Celine Sahaya Mary. NCC students have also demonstrated various postures to the audience.

Students Demonstration in International Yoga Day - 21.06.2019

. Several competitions like, Poster making and Best practitioners of Yoga and Meditation were conducted and the following Winners were awarded with prizes.

SCIENTIFIC & YOGA MEDITATION

NAME	: Mrs. N. Rama Rani	DATE	: 24.06.2019
DESIGNATION	: YOGA TRAINER, ANAYUR, MADURAI.	TIME	: 10.00 – 12.00 noon
PHONE NO	: 8124596709	VENUE	: Seminar Hall

KEY POINTS HIGHLIGHTED:

- Importance of yoga on account of International yoga day.
- The event emphasized the importance of Yoga.
- The need of practicing Yoga for health management.

The session concentrated on importance of practicing Yoga and meditation to improve mind-body health and stress resilience. Yoga and meditation can play an important role in their life because these help in controlling the function of our mind i.e. ego, desire and intellect. Yoga is a well-known physical, mental and spiritual practice since the ancient time and still benefitting people globally. It helps in the expansion from narrow egoistic personality to the all-pervasive, endless and delightful state of reality. The practice includes physical postures, regulated breathing, meditation and relaxation, which is helpful in improving life-style and also in bringing down the prevalence of medical emergencies like psychological, neurological and metabolic disorders.

OUTCOME:

- ✓ This session is very useful to know the importance of Yoga and Meditation.
- ✓ It helped the students to remain happy and healthy even with many life stresses.

✓

✓ **SCIENTIFIC & YOGA MEDITATION, 24 JUNE 2019, N. RAMA RANI,

MILLET EATERIES

2019-2020

“To enhance the habit of eating healthy food among the students’ Millet Stall was organized by Environment Education Students”.

Their high-fiber content helps in bowel movement and manages diabetes and obesity. Besides, millets can bring down blood glucose in diabetics and are rich sources of antioxidants apart from being useful in preventing cardiovascular diseases. From this, the students learn the importance of healthy food.

Women Cell of Fatima College

Session on Awareness Program

Date: 18/07/2019

Time: 2.30 PM – 4 PM

Venue: San Joes Seminar Hall

Topic: You are, what you eat

Health is wealth and health forms the basis for a sound life. Women Cell organized a health awareness programme on 18th July, 2019. Dr.K.Karthiga, Assistant Professor, Department of Home Science, Fatima College was the Chief Guest. The programme started with a prayer song by I UG computer science students. Ms.Harini of I B.Sc Home Science welcomed the guest Dr.K.Karthiga. The chief guest delivered her speech on the topic entitled **“You are, what you eat”**. She stressed on the importance of balanced diet, breakfast, nutrition etc., She motivated the students to have right proportion in right quantity throughout the day.

The speech was focussed on the nutrition for youngsters, the right type of intake of food such as consume adequately, liberally, moderately and sparsely. She also directed the students towards **“Eat well plate”** on the daily recommendation of food allowances for the teenagers. She rightly pointed out the ill effects of skipping breakfast such as heart problem and diabetics in man and women respectively through videos.

She pointed out the health hazards of junk foods including rise in blood pressure, bad cholesterol, cancer, stroke, heart problems and health food tips to overcome the deficiencies. She motivated the students to find out their BMI and maintain correct weight through healthy food habits. The whole programme was co- ordinate by Fatima Siha of I B.Sc Home Science.

Green Club Report 2019-20

DATE: 27.09.2019

Time : 12 noon – 1: 30 pm

Venue : Vermicompost Shed

Programme: Preparation of liquid decomposer

Waste decomposer is now-a-days developed by farmers which is used for quick composting from organic waste, soil health improvement and as plant protection agent. It is a consortium of micro organism extracted from desi cow dung. Students of green club were taught to prepare Liquid decomposer by using Butter milk, Jaggery and Cow dung **27.09.2019** and this mixture was poured into to compost pits to enhance the composting process. Students learned the importance of organic manure and the method to enhance the process of decomposition in a natural way. 38 students attended the activity and were taught to prepare the liquid decomposer. 1 kg jaggery was mixed it in a plastic bucket containing 50 liters water and 2 litres of buttermilk and cowdung was added and Mixed with a wooden stick for uniform distribution of waste decomposer in a drum. The drum was covered and after the solution was poured into the pit. Students were benefited by learning the preparation of liquid decomposer which they can teach to the farmers who are unaware of this in their neighbouring communities or in extension programmes.

Outcome: Students got more insight about converting waste into wealth and importance of solid waste management

SERVICE FOR CANCER PATIENTS THROUGH MUSIC THERAPY

- Venue : Rajaji Government Hospital, Madurai.
- Name of the Organizers : The Ashwin Maharaj Foundation, and NGO
- Participants : AICUF Students
- Title / Topic of the activity : **Service for Cancer Patients Through Music Therapy**

ACTIVITY DESCRIPTION:

MUSIC THERAPY FOR CANCER PATIENTS

Fatima College joining with The Ashwin Maharaj Foundation, an NGO entrusted in music therapy sessions for the cancer patients at Government Rajaji Hospital, Madurai. Two AICUF students and Four NSS volunteers are accompanied by **Dr. Angel**, The AICUF Coordinator and Assistant Professor of Tamil in Fatima college to visit Cancer Centre, Oncology division, Government Rajaji Hospital twice in a month to give music therapy for cancer patients.

This music therapy is a part of a complementary medicine program in supportive cancer care which accompanies medical treatment. Music therapy for cancer patients—interactive music therapy techniques (instrumental improvisation, singing) as well as receptive music therapy techniques (listening to recorded or live music, music and imaginary) are used to improve mood, decrease stress, pain, anxiety level and enhance relaxation. This therapy is an effective form of supporting cancer care for patients during the treatment process which also basic for planning effective programs of rehabilitation to promote wellness, improve physical and emotional well-being and the quality of life.

An attempt to make roads safer

Madurai: Students of Fatima College performed a skit, and a flash mob on road safety awareness and on the significance of wearing helmets at Goripalayam Bus stand and Railway junction here on Monday. The programme was organized by the Department of Journalism and Mass Communication.

'Driving Risky After Whisky'

Seventy students from the department gathered at Goripalayam and 20 of them carried placards with such catchy slogans as 'Driving Risky After Whisky, Fast Drive Could be Your Last Drive, Love safety, Marry Rules, Divorce Speed'.

Driving the point home through dance

Over 15 students performed dance and a skit towards spreading awareness on the importance of wearing helmet. The same programme was performed at Railway Junction as well.

Women students 'take to streets' to spread road safety message

TIMES NEWS NETWORK

Madurai: Around 40 women students from a city college performed flash mobs on Monday at two major public spots in the city to create awareness about road safety and wearing helmets.

Students from Fatima College's Department of Journalism and Mass Communication performed flash mobs at Goripalayam junction and outside Madurai Railway Station

Students from Fatima College's Department of Journalism and Mass Communication performed flash mobs at Goripalayam junction and outside Madurai Railway Station, carrying the message of wearing helmets and staying safe on roads. "The inspiration for coming up with such an activity started within the college. We noticed that many students didn't wear helmets properly or they used to wear them only

SHAKING A LEG FOR ROAD SAFETY: Fatima College students performing a flash mob at Goripalayam junction

on seeing the police. It is sad to see that many of us, even after being aware of safety rules tend to ignore it. So, we did a program to make students understand the importance of road safety. Then, we had the thought of taking the message directly to the public through such an activity," said Dr Saira Banu S, Assistant Professor, Department of Journalism and Mass Communication, Fatima College.

The performances of the students reminded the public about safe practices to be followed while on road. The need for

people on two-wheelers including the pillion riders to wear helmets, the necessity for wearing seat belts and following road safety rules. Dr Saira Banu further said that the students received full support of the local police, including district Commissioner of Police, S Davidson Desirvatham. "The police stressed on the need for such awareness events. Our journalism students not only benefited from organizing the flash mob but also by covering it as budding reporters, talking to the public and police about road safety in the city," she said

Flash mob stresses the importance of wearing helmet

STAFF REPORTER
MADURAI

Vehicle users who passed through Goripalayam junction here on Monday morning were in for a surprise as about 50 students of Fatima College performed a flash mob to raise awareness of road safety. With music booming from loudspeakers, the students danced and held placards to emphasise the importance of wearing helmet.

The students from the Department of Journalism and Mass Communication of the women's college performed a flash mob at the entrance of Madurai railway junction too. "Though it is mandatory to wear helmet, many a motorcycle rider hurriedly slaps his helmet on his head only on seeing traffic police. So many people still violate the law and do not understand that wearing helmet is for their safety only," said Sudhishtha Balakrishnan, a final-year student.

Talking on mobile like riders claimed other rules too, said R. Dharti, a second-year student. "A lot of people speak on their cell phones while riding. We want to emphasise that even the pillion rider must

The way forward

- About 200 head injury victims come for eye treatment every month
- Imposing fine alone might force bike riders to wear helmets
- Self-realisation and behavioural change needed among people

wear a helmet," she said.

M. Panchavaram, a traffic police officer present at the junction, lauded the students for their novel attempt. "We tell riders to wear helmets all the time, but not many follow the rule. When students themselves create an awareness of this kind, it will certainly make an impact on the youth," she said.

Loss of vision

Though not all road accidents were fatal, the victims could lose eyesight even due to a minor injury, said S. Mahesh Kumar, Head, Department of Neuro Ophthalmology, Aravind Eye Hospital.

"A small injury on the head can damage the optic nerve which may even lead to loss of eyesight," he said.

"On an average, about 200 head injury victims

come for treatment to our hospital every month. Most of them could not have worn the helmet. To prevent damage to vision, one must certainly wear a helmet," he said.

"There was a considerable increase in the number of motorcycle riders wearing helmet in the city," said Assistant Commissioner of Police (Traffic) Joseph Dixon. "Total compliance of helmet rule is possible only when there is self-realisation among people," he said.

60% to 80%

Deputy Commissioner of Police (Traffic) K. Sukumaran said, "In July 2009, only around 60% of the vehicle users used helmets. Now, it has risen to 80%," he said.

The police were creating awareness along with penalising violators so that every rider wore a helmet. "Though imposing fine might force bike riders to wear helmets, it is not sustainable. Spreading awareness is the solution in the long run by which we are aiming at a behavioural change," he said. "Our main focus is to create awareness among the youth. Through sustained efforts we can achieve total compliance," he said.

DATE: 10.01.2020.

Time : 1: 30 pm

Venue : Herbal Garden

Programme: Hands on training on “Preparation of herbal beauty products from *Aloe vera*”

Green club in collaboration with Department of Zoology organized a **Hands on training on “Preparation of herbal beauty and healthcare products from *Aloe vera*”** on 10.01.2020. Earlier students of green club brought the *Aloe vera* plants from their home and planted in the herbal garden of Zoology Department on 16th of October 2019 for preparing the health care and beauty products from these plants as raw materials. The concept was “**Go Green**” to make them grow the plant and prepare products out of it. Dr. B. Vinosha of Chemistry Department trained the students in preparing the *Aloe vera* Lip balm and *Aloe vera* home made soap. Dr. V. Bharathy of Zoology trained the students in preparing the *Aloe vera* oil, *Aloe vera* Juice and *Aloe vera* face gel. A total of 52 students 47 students from regular and 5 students from self finance courses attended the programme were benefited. Rs.50/ was collected from each students towards fee.

The aim of the programme was to make student community aware of the importance of the naturally, abundantly available herbs and their potential uses. At the end of the programme the beneficiaries gained the knowledge and well trained on the preparation of these products. The easy availability of the *Aloe vera* and the awareness of its medicinal benefits given by this programme encouraged the students to go organic which they reflected in oral feedback.

Awareness on Corona Virus

DATE: 13.02.2020

TIME: 2.00PM- 4.00PM

VENUE: Fatima College, Madurai

Corona virus has become a growing threat to human lives all over the world. Originating from Wuhan, China, the virus is endangering the lives of innumerable people. As knowing about the virus gives the power against it, Fatima College (Autonomous), Madurai, organised a session to educate the students on the precautions to be taken against the virus. The program started around 02.00 p.m. in the Jubilee Hall with a prayer song. Ms. Subbulakshmi, II U.G. Tamil welcomed the gathering and introduce the guest speaker, Dr. G. Uma, Vice Principal, Shift I, Fatima College. Ms. Fahira Banu, II U.G. Physics gave a brief introduction to the virus and stressed on the importance of the session to the students. Dr. G. Uma then spoke about the origin of the virus and its symptoms. The virus was originally identified in bats living in cages, when humans started to disturb their livelihoods, it spread among humans. She then detailed the symptoms as cough, uneasy breath and fever. When the individual does not respond to the usual treatment, their blood is then tested and after 14 days the results will be produced. Humans with low immunity lose their lives as their body fails to fight the virus for 14 days. Dr. G. Uma then briefed the students on the everyday preventive actions that ought to be taken by them. It included washing hands 10-15 times a day, using handkerchiefs instead of tissues, food intake and avoiding human contact. She then informed the precautions taken by the government of India to keep its citizens out of harm's way.

Demonstrations were made by the students on personal hygiene. The program ended with a vote of thanks by Ms. Jesfa, II U.G. Tamil.

CHIEF GUEST PROFILE: Dr. G. Uma, Vice Principal, Fatima College

OUTCOME: The students learned the basics about CORONA and its preventive measures.
